TUAN T. LAM
PRIMARY EXAMINER

1. The following is an examiner's statement of reasons for allowance: the amendment filed 2/2/2005 has overcome the technical deficiencies and the prior art of record. The prior art of record fails to teach or fairly suggest a clock latch unit generating a gated clock signal for enabling output of the cascode data to the sense amplifying unit, in response to an enabling signal and the clock signal as called for in claim 1, a clock latch unit generating a gated clock signal in response to the enabling signal and the clock signal, and a cascode logic unit storing the output data and the feedback data and generating the cascode data in response to the gated clock signal as called for in claim 11, outputting one of the first signal and second signal as output data and one of the first inverted signal and second inverted signal as feedback data based on a logic level of an enabling signal as called for in claim 21. Therefore, claims 1-9, 11-17, 21-27 and 29 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
